BIOMETRIC FINGERPRINT

DATA COLLECTION

HCL operate a cashless system with Live Register for the school meals. In order to facilitate this, pupils need to have their fingerprint scanned to purchase items from the school canteen, the fingerprint will be the method of identification for payment.

It is important that all pupils who may have a school meal, even a Christmas lunch, do have their fingerprint scanned as it will be the only way to order/pay for school lunches. Scans will be taken at various times during the school year. In the meantime, a pin number will be allocated to use.

The fingerprint scan only scans three sections of a child's fingerprint. All fingerprint data is held securely on in-school servers, and is never uploaded to any web or cloud services and no staff can see the actual biometric data that is captured.

To make sure we have the correct contact details to contact you with, please fill in below.

Child's Name_____

Child's Year _____Child's Form if known_____

Parents Name_____Date_____
